Moreover, the WCO will eventually issue a cross-reference table under Article 16 of the Harmonized System Convention indicating the agreed international classifications (existing and future) of the goods affected by the proposed changes. The latter table may be released later in the Commission's investigation, and differences between the international and domestic classification of a few goods may be suggested (in some cases due to reservations filed by member countries or to theoretical or asserted classifications for some goods). Thus, the classifications shown in the Commission's cross-reference table are subject to change during the study.
